Respected sir,

Sub- submission of 2021-2022 feedback from various stakeholders related to our curriculum and syllabus-regarding

We are very much thankful to KUHS for considering most of our previous suggestions and incorporating them in the 2020 regulations curriculum and syllabus.

We had taken feedback from various stakeholder's (students, teachers, alumni and employers) of our institutions for enhancing the academic quality and identifying the gaps in the curriculum as per the current requirement. We have listed below the key suggestions related to curriculum and syllabus. We are very pleased to bring this to your kind notice for further actions and improvements while reframing the curriculum and syllabus

Suggestions related to curriculum and syllabus

1. Few recommended textbooks and reference books are not available in the market related to the new emerging domains
2. Add some practical relevant courses in the curriculum for developing innovative thinking
3. The syllabus is not covering current industrial needs, the stakeholders suggested to add courses that may include more industrial related topics.

Thanking you,

G. Babu

Respected sir,

Sub- submission of 2019-2020 feedback from various stakeholders related to our curriculum and syllabus-regarding

We are very much thankful to KUHS for considering most of our previous suggestions and incorporating them in the 2019 regulations curriculum and syllabus.

We had taken feedback from various stakeholders' (students, teachers, alumni and employers) of our institutions for enhancing the academic quality and identifying the gaps in the curriculum as per the current requirement. We have listed below the key suggestions related to curriculum and syllabus. We are very pleased to bring this to your kind notice for further actions and improvements while reframing the curriculum and syllabus

Suggestions related to curriculum and syllabus

1. The syllabus is not covering the current industrial needs, the stakeholders suggest to add the courses including the concepts of stereochemistry.
2. The syllabus can include practical's for pharmaceutical biotechnology.

Thanking you,

Dr. G. Babu, M. Pharm., Ph.D.
